

Invitation

Internal Auditor Training on July 12th and July 19th, 2023 at QESH Services, Aruba

It is a requirement of Management Standards such as ISO9001, ISO14001, OHSAS 18001, ISO 22000, Airport Standards like IOSA & ISAGO, Hospitality Standards, Green Globe, Earth Check, Financial Standards AO/IC, Hospital standards NIAZ & HKZ that Internal audits are carried out on a regular basis.

An internal audit is an important tool to assess your organization and the effectiveness of your management system. This preserves the integrity of your management system. The results of the internal audit are a source for improvements. All internal auditors are required to be adequately trained. The course addresses and meets the Standard ISO 19011:2011 (Requirements for Internal Auditors). The primary focus on this training will be on practice simulations with case studies and roleplays.

Note: Not an IRCA Registered course, but is recognized by all Certification Bodies as meeting the Auditor Training requirements.

Course Content
